FOR COMMONWEALTH'S ATTORNEY,
R. E. FRANKLIN, of Franklin.

The genuine Democratic platform needs no interpreter in any part of the county.—Bryan.

Most families will probably make money this winter by buying new furniture, using their old as fuel.

RESIDENTS of Pewee Valley who oppose the location of the Confederate Home at that place threaten legal proceedings to prevent the purchase of Villa Ridge Inn.

An exchange, says: A woman would not be satisfied without some unnatural bump on her somewhere. Just now it is the fad to wear a shirt waist that looks as if a peck of apples had been dumped into it in front.

The youngest grandfather in Kansas has not yet reached the voting age. He is a resident of Franklin county, and is indebted to his wife, a widow with grown children, whom he married recently.

The Mt. Sterling Gazette says: "We notice in a daily paper the headline, 'Shot in a Melon Patch.' Good thing that fellow had a melon patch along with him, else the result might have been serious."

The managers in charge of the Fall Festival at Cincinnati have advertised for twenty red-headed girls for the Swiss chalet. If they would only wait till a white horse came in sight, they would probably find the girls with the auburn hair.

The Washington Star, a Republican paper, is candid enough to admit that "after protection has accomplished its purpose it operates against the general good." When a policy "operates against the general good" it ought to be changed or abandoned. But the Republican party will neither modify nor abandon its tariff idea. The only remedy is to bring about the defeat of the party.—Georgetown Times.

The Possibilities Developed.

The success of the Disc type of Graphophone which uses flat, indestructible records, is largely due to the fact that the Columbia Phonograph Company, pioneers and leaders in the talking machine art, has developed the possibilities in both the machines and the records beyond all expectations. It was able to do this because it is the only company in the talking machine field having a complete laboratory and a manufacturing plant on a broad and comprehensive basis. Its facilities for experimentation and for manufacturing are on a very large scale. It does not have to rely on inexperienced manufacturers for any part of the product it offers for sale. It makes its own machines and its own records from start to finish which is a fundamental advantage of the first magnitude.

The Disc Graphophone is made in three types, selling at \$15, \$30 and \$30. Seven inch records 50c each, \$5 per dozen; 10 inch records \$1 each, \$10 per dozen. The Graphophone and Columbia Records were awarded Grand Prize at the Paris Exposition in 1900.

The Columbia Phonograph Company, 110 E. Baltimore street, Baltimore, headquarters of graphophones and talking machine supplies of every kind, will send you catalogues on application.

A man who has tried it says: "I was obliged to quit work on account of biliousness. After using one box of Ramone Liver Pills and Tonic Pills and Tonic Pellets I was restored to perfect health." They are for everyone. Even the most delicate person may use them with beneficial result.—W. T. Brooks, Clarke & Co. (1sep-1mo)

CONFEDERATE NOTES.

—The Confederate Committee having in charge the selection of a desirable place for the Kentucky Confederate Soldiers' Home, has decided upon Villa Ridge, Pewee Valley, as the location for the new institution. Villa Ridge contains 83 acres of land and a large and commodious building containing 72 furnished rooms with water, gas and all modern conveniences. It will accommodate about 200 people. Everything will be in readiness for the reception of the old soldiers about the 15th of October.

—The Commander-in-Chief of the Grand Army of the Republic has issued an appeal for funds to aid in the erection of a home for ex-Confederate veterans.

Now will you be good? After denouncing the Goebel election law bill these years it is now stated that the Republicans of Ohio will incorporate almost an exact production of this alleged "infamous" law into the new code on which they are at present engaged.—Maysville Bulletin.

A Philosopher can explain almost anything—except his philosophy.

It Has Come to the Front.

The rapidity with which the Disc Graphophone has come to the front is due to the fact that the quality of the records has been constantly improved, from the time this type of machine began to be made by the Columbia Phonograph Company, the pioneers and leaders in the talking machine art. The advantages of flat, thin and indestructible records were always recognized, but the manufacturers who attempted to make them failed so lamentably in producing anything to compare with the cylindrical records used on the graphophone that the demand for them was unimportant. All that is changed; the Columbia Disc Records are a delight. If you have not heard them you can form no idea of the advance that has been made in them. The disagreeable scratch and the muffled effect has been replaced by a smooth, naturalness and brilliancy which gives to their production a most charming effect.

The Disc Graphophone is made in three types, selling at \$15, \$30 and \$30. Seven-inch records 50c each, \$5 per doz; 10-inch records \$1 each, \$10 per doz. The Graphophone and Columbia Records were awarded the Grand Prize at the Paris Exposition of 1900.
